DEPARTMENT OF MATHEMATICS

Date: June 26, 2009

TO WHOM IT MAY CONCERN

I am a US citizen and have served Central Washington Community for 22 years as Professor of Mathematics at Central Washington University in Ellensburg, WA. Also I served for 10 years as President of Central Washington Association for Equal Treatment.

I am writing this letter to fully support the application of Muhammad Chaudhry for US citizenship. He is my nephew and I have known him since his childhood. He loves to help his friends. I know several residents of Yakima WA who were helped by Muhammad to rebuild or to remodel their kitchens, basements etc. Muhammad has very good practical skills in computer repairs and he is always helping the people in Yakima community to fix their computers. He even helps in some local schools to repair computers and accessories. Of course he has fixed my computer a number of times.

Muhammad is a hard working and honest young man. He is always very proud to be an American Soldier.

Muhammad is a valuable member of the community and he should be allowed to become a citizen of US.

Sincerely yours,

Alla Ditta Raza Choudary
Emeritus Professor,
Mathematics Department,
Central Washington University,
Ellensburg, WA 98926.
